Fits all types of lockers; left or right-hinged.
Part No. 1710

AUTOMATIC LOCKING SPRING BOLT
Fits all types of lockers; left or right-hinged.
Part No. 1714

MANUAL LOCKING DEADBOLT
Fits all types of lockers; left or right-hinged.
Part No. 1710MKADA

AUTOMATIC LOCKING SPRING BOLT
Fits all types of lockers; left or right-hinged.
Part No. 1714MKADA

NOTE: All Locks Master-Keyed. Specify Master Number or New Series.

For Use on Lockers Without Handles

RIGHT HAND SHOWN

PART NO.	DIRECTION	SPRING LOAD
6315R-01	Right Hand	22-27 oz.
6315L-01	Left Hand	22-27 oz.

DIGILOCK

UNLESS LOCKED WITH DIGILOCK, YOUR ADA LOCKER IS NOT COMPLIANT

- ADA Compliant*
- One-touch access
- Snap together design provides instant installation to all metal lockers
- High security lock with a 1/2" deadbolt or deadlatch
- Audio /Visual Indicators for the visual and hearing impaired
- Non-handed
- Nickel finish
- Operates on 4-AA or 4-AAA batteries (included) depending on model, with a battery life of 3-5 years depending on usage

Digilock T-30
Is designed for lockers with handles and a vertical locking bar. Locking bolt moves horizontally and the lock functions similar to Master Lock Models 1630/1631.
Part No. T-30

Digilock T-52
Is designed for box lockers and lockers with a single point latch. Latch moves horizontally and the lock functions similar to Master Lock Models 1652/53 or 1654/1655
Part No. T-52

Digilock T-70
Is designed for all metal locker applications. Locking bolt moves horizontally and the lock functions similar to Master Lock Models 1670/1671
Part No. T-70

Power Jumper
Power Jumper provides external power to the lock for replacing the batteries located in the rear unit. A valid button key is also required to gain access to the lock.
Part No. Power Jumper

Management Button Key
Allows access to all locks in the system. Up to 25 Management Button Keys can be programmed per lock.
Part No. Manager Key

Programming Button Key
Used for registering User and Management Button Keys to a lock. The keys are registered by touching the Programming Button Key to the lock followed by the User or Management Button Key(s).
Part No. Programmer Key

Time-Set Button Key
Digilock T-30 and T-52 are programmed with a 10 second default unlock time. This time can be changed with the use of a Time-Set Button Key.
Part No. Time-Set Button Key

User Button Key
Each User Button Key carries a unique digital identification that eliminates key duplication and unauthorized access. Only one User Button Key can be programmed per lock while multiple locks can be programmed with one key.
Part No. User Button Key

20" x 34"	D 700F	D 700S	5	75 lbs.

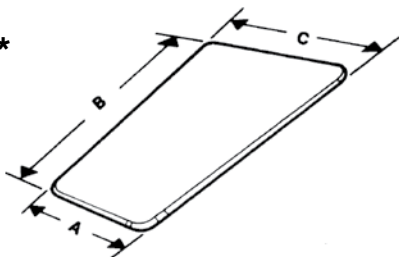

Hundreds of thousands of molded plastic seats, backs and desk tops are used, and sold to schools by leading school furniture manufacturers. The high quality of these products provides increased surface hardness and core density for better screw holding properties, more flexural and impact strength to better absorb shocks from dropping and careless handling.

Standard colored parts (natural) can be shipped more quickly than other colors. Woodgrain colors are Walnut, Ash, Maple and Birch. These are available at a slightly greater cost. Time of delivery depends on availability of particular woodgrain color ordered.

Toilet Partition Design

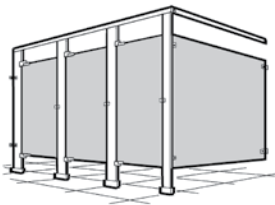

Materials — Five are available

- POWDER COATED METAL • STAINLESS STEEL • PLASTIC LAMINATE • SOLID PLASTIC/POLYMER • PHENOLIC •

Styles — Four are available

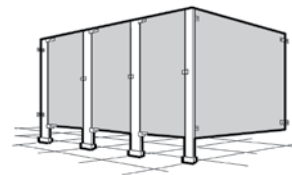

OVERHEAD BRACED/ FLOOR ANCHORED

Units are recommended for heavy traffic and necessary vandalism-proof areas. Most economical. Anodized aluminum goes around top. They do not require any special floor construction, therefore they can be used in old or new buildings.

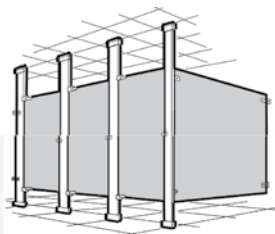

FLOOR MOUNTED

Absence of top structure prompts the use of these units in low ceiling areas. Gives modern, contemporary appearance. They require a 3" minimum concrete floor construction to secure anchor bolts.

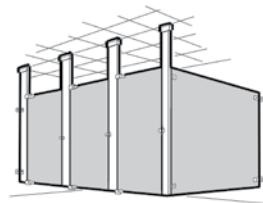

FLOOR-TO-CEILING ANCHORED

Better than overhead braced for heavy traffic and vandalism-proof areas. Most stable as pilasters are anchored into concrete floor and structural ceiling support.

CEILING HUNG

Ceiling Hung is the best choice where minimizing maintenance is of primary importance. They provide a floor area free from obstruction to speed maintenance. However this design requires structural steel supports in the ceiling.

TOILET PARTITION DESIGN

Stainless Steel Partitions

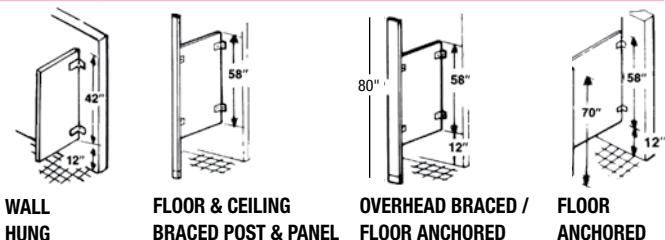

Complete Restroom Stalls

- Provides gleaming beauty, exceptional durability and modern styling.
- Type 304 stainless steel with a #4 finish bonded to an inner honeycomb core under pressure with a non-toxic adhesive to ensure solid construction and sound attenuation. Assembled with continuous roll-formed interlocking, 22 gauge stainless steel crown molding, with corners welded and ground smooth.
- Doors, panels and urinal screens — 1" thick, 22 gauge stainless steel.

- Pilasters — 1-1/4" thick, 22 gauge stainless steel.
- Hardware — Cam-action hinges permit door to remain at desired position when not in use. Hinges, strike and keeper, coat hook and latch are chrome plated alloy. Concealed latch allows for emergency access.
- Installation instructions and all mounting hardware are supplied with each order.

DOORS	PANELS	PILASTERS	ALUMINUM HEADRAIL
Includes: Hinges and All Hardware	Includes: 2 Brackets	Includes: Brackets and Shoe	Available in the following lengths — 62", 75", 98" and 120".

Solid Phenolic Partitions

- Ideal for extreme moisture conditions in showers, pools and saunas. Surfaces are smooth and easy to clean.
- Phenolic material is comprised of multiple layers of melamine resin impregnated kraft paper and a decorated surface sheet on both faces. All layers are fused together under high pressure. Material of choice where durability and strength are required. Uses stainless steel brackets. Impact and corrosion resistant; does not support bacteria.
- Doors and pilasters — 3/4" thick
- Panels and urinal screens — 1/2" thick

- Hardware — Cam-action hinge permits doors to return to a preset position when not locked. Hinges, strike and keeper are brushed aluminum. Cam-action hinge allows emergency access by lifting door.
- Installation instructions and all mounting hardware are supplied with each order.

ALUMINUM HEADRAIL

Available in the following lengths — 62, 75, 98 and 120". And for 1" and 1-1/4" thick pilasters.

Specify [Part No.9THS-XX-Y](#) (where XX is length and Y is pilaster thickness). 1-1/4" Wide Pilaster, Anti-grip type. Has 1/4" slot for curtain.

Plastic Laminated Partitions

Replacement

DOORS

Includes: Hinges and All Hardware
 Available for the following door opening widths (actual door size is 3/8" narrower than the opening) — 22, 24, 26, 28, 30, 32, 34, and 36"
 Specify — color, **Part No. 9TDL-XX** (where XX is door opening width)

PANELS

Includes: 2 Brackets
 Available in the following widths — 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 55, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78". Actual width is 1/2" less.
 Specify — color and **Part No. 9TPL-XX** (where XX is panel width)

PILASTERS

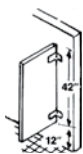

Includes: Brackets and Shoe
 Available in the following widths — 3, 4, 5, 6, 7, 8, 10, 12, 16, 18, 22 and 24".
 Specify — color and **Part No. 9TLL-XX** (where XX is pilaster width), overhead braced for 80" length, wall hung for 55" length and floor-to-ceiling for up to 116" maximum length.

ALUMINUM HEADRAIL

Available in the following lengths — 75 and 120".
 Specify **Part No. 9THL-XX** (where XX is length).
 1-1/4" Wide Pilaster, Anti-grip type has 1/4" slot for curtain.

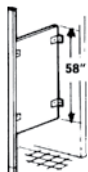

- Gives a more aesthetic appeal while maintaining economy.
- Fabricated from 45 pound density, resin impregnated particle board. Plastic laminate is glued to particle board with a non-toxic, water resistant adhesive under high pressure. Components are edge banded prior to face lamination to ensure moisture run-off and vandal resistance. Not recommended for high moisture areas.
- Doors, panels and urinal screens — 1" thick (uses 7/8" particle board)
- Pilasters — 1-1/4" thick (uses 1-1/8" particle board)
- Hardware — Gravity cam-action hinges permit door to remain at desired position when not in use. Hinges, strike and keeper, coat hook, latch and brackets are chromed plated alloy. Door can be lifted to allow emergency access.
- Installation instructions and all mounting hardware are supplied with each order.

Privacy/Urinal Screens

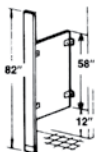

WALL HUNG

1" thick by 42" high panel. Available in the following widths — 12, 18, 24 and 30".
 Specify — color and **Part No. 9SWHL-XX** (where XX is the screen width).

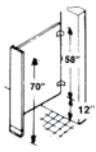

FLOOR & CEILING BRACED POST & PANEL

1-3/4" square post up to 120" maximum with 58" high panel. Specify — color, **Part No. 9SFCL-XX-Y** (where XX is width from the front of the post to the wall, Y = floor-to-ceiling height)*

OVERHEAD BRACED / FLOOR ANCHORED

Pilaster is braced by headrail to wall. Panel is 58" high. Pilaster is 80" high. Specify — color and **Part No. 9SOBL-XX** (where XX is width from the front of the pilaster to the wall*).

Floor Anchored

70" high pilaster and 58" high panel. Specify — color and **Part No. 9SFAL-XX** (where XX is width from the front of the pilaster to the wall)*.

* The overall width of the screen is 2" wider than the width of the panel.

PLASTIC LAMINATED PARTITIONS

Solid Polymer Plastic Partitions

Complete Restroom Stalls

- **Designed for high-traffic public facilities, parks and schools.**
- The high-density polyethylene material has homogenous color throughout each component. Self-lubricating surface resists markings from pens, pencils, etc. Has low maintenance; good durability; water resistant, unaffected by steam or high humidity. Available in overhead braced/floor anchored and floor-to-ceiling anchored only.
- Doors, panels, pilasters and urinal screens — 1" thick, doors and panels are 55" high.
- Hardware — Available in hidden integral hinges or wrap around vault-type hinges. Cam-action hinge permits door to remain at desired position when not in use. Slide latch, striker and keeper, and coat hook are chrome plated alloy. Slide latch assembly allows for emergency access. Standard brackets are 54" long extruded PVC colored to match partitions. Pilaster shoes are molded plastic to match partitions. Stainless steel shoes and full height aluminum brackets are available at no up charge.
- Installation instructions and all mounting hardware are supplied with each order.

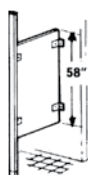

Privacy/Urinal Screens

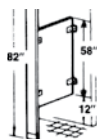

WALL HUNG

1" thick by 42" high panel. Available in the following widths — 12, 18, 24 and 30". Specify — color and **Part No. 9SWHP-XX** (where XX is the screen width).

FLOOR & CEILING BRACED POST & PANEL

1-3/4" square post up to 120" maximum with 55" high panel. Specify — color, **Part No. 9SFCP-XX-Y** (where XX is width from the front of the post to the wall, Y = floor-to-ceiling height)*

OVERHEAD BRACED / FLOOR ANCHORED

Pilaster is braced by headrail to wall. Panel is 55" high. Pilaster is 80" high. Specify — color and **Part No. 9SOBP-XX** (where XX is width from the front of the pilaster to the wall*).

* The overall width of the screen is 2" wider than the width of the panel.

Dry Erase Boards

Shipped with 4 markers, an eraser, and installation hardware.

The Pro-Rite Series porcelain steel magnetic board is our top-of-the-line with a 50-year warranty. The HPL Series high-pressure surface covering offers durability at a moderate price and a 10-year warranty. The Remarkaboard Series melamine surface covering offers economy with a 90-day warranty.

Standard Chalkboards

Hard, durable, two-coat baked finish on hardboard assures clean writing and erasing.

Writing surface color: Green (std.) or Slate Black.

WINDOW HARDWARE

WHAT IS SECURITY LATCH?

SECURITY LATCHES are an investment in protection and safety. It has many benefits over standard methods of panic door retaining devices.

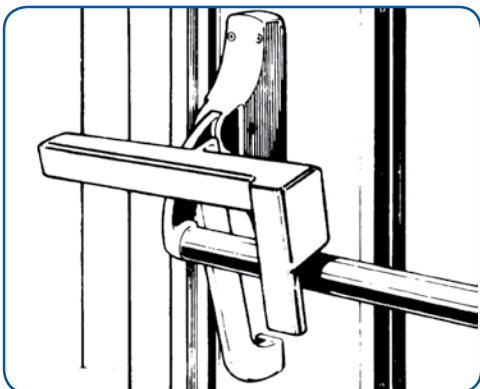

- Here's why.
- FIRE SAFETY:** Secures Panic Doors without chains or padlocks. . . allows fire fighters immediate exit from a building. . . eliminates the possibility of being trapped in a burning building.
 - VANDAL-PROOF:** Prevents costly, prankster false alarms in buildings with electronic security systems. . . eliminates vandal entry into buildings.
 - TIME SAVER:** Saves employee time securing a building because of the simplicity of application, removal and storage.
 - LOW COST:** The average school can be equipped with Security Latch for less than the insurance deduction incurred as the result of one break-in.

Rubber Safety Stairtreads

Part No 500

• Our heaviest gauge molded rubber tread; exclusive rectangular design—for safety, durability and ease of maintenance; easily trimmed to exact size of steps. Select standard length of 36", 42", 48", 54", 61" or 72".

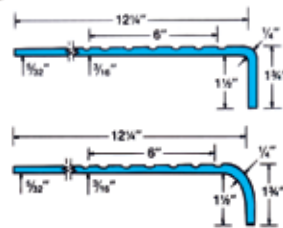

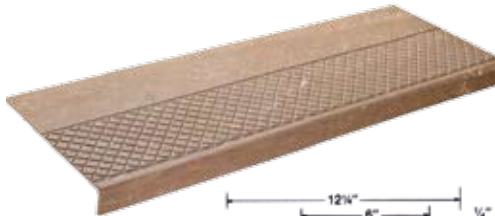

AVAILABLE WITH RECESSED GRIP-STRIPS

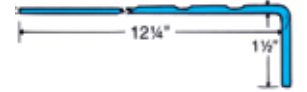

Part No 622

• The original molded rubber diamond design stair tread; half diamond design, half smooth, with a longer adjusted nose to fit pan filled, moulded concrete or terrazzo steps. Use in commercial, industrial or institutional buildings. Diamond design surface is 6" deep, covers impact area of pedestrian traffic. Select standard length of 36", 42", 48", 54", 60" or 72".

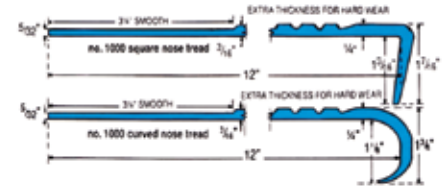

Part No 800

• Our Lo-Disc Stair Tread has the ever popular round disc design in a lighter gauge stair tread. Lo-Disc Stair Treads have tapered 3/4" discs, raised .025"; are easier to keep clean. An economical, attractive long wearing resilient rubber stair tread with added weight at the front edge; excellent for lighter traffic stairways. Select standard length of 36", 42", 48", 54", 60" or 72".

Part No 1000

• An attractive, easy to clean, horizontal bar pattern, tapered return nose for better fit. Extra thick front edge tapers to smooth rear border, makes cleaning easier. Select standard length of 36", 42", 48", 54", 60" or 72"; (54", 60" and 72" available in square nose only.)

Part No. 505CR

RISERS

• Covered Risers to match stair treads. Allows easier cleaning and greatly reduces fitting procedures at rear edge of steps. Can be easily trimmed in height and length. 7/8" thick, 7" high with 5/8" toe. Standard lengths 24", 30", 38", 42" 48" 54" 60" or 72".

Part No. 500R

STRINGERS or RISERS

• Smooth Stringers or Risers in various heights and lengths. Furnished in roll form to cut on the job. 1/8" thick by standard heights and lengths. Height 6", 7", 8", 9", 10", 12" or 36". Standard lengths up to 75' in one piece.

Colors Extend through Entire Thickness

Specify Colors When Ordering: Plain Black • Marbelized Colors: Mahogany • Oatmeal • Green • Birch • Gray • Beige • Red • Blue

Also Available: Self Adhesive Grit Strips. Call or Write for a color Chart or Visit www.robertbrooke.com for color charts and a larger selection.

Vinyl Stairtreads

NOTE: Available in brown, black, sand or gray solid colors — A LOWER COST ALTERNATIVE TO RUBBER

NEXT DAY DELIVERY

- **IN STOCK ORDERS** In by 11 a.m. E.T. can be shipped for next day delivery.
- **CUSTOM** orders, please call for estimated time of delivery.

FREE FREIGHT (subject to change at anytime)

- Eligible products will be identified with a balloon sign on their page. Qualification and the amount of free freight requires that your order be over a certain size. They must be within the lower 48 States, non-residential, no connecting carriers and no advanced calling.

QUANTITY DISCOUNTS

- Interested in volume discounts? Give us a call and we'll give you a price. Our goal is to have the lowest prices!
- Sales conditions are subject to change at any time.

How to Order

- We accept Purchase Orders and Verbal Orders from schools and most institutions.
- Call, Fax or Write, including the following information:
 - 1) Purchase Order No. or name of person authorized to purchase.
 - 2) Your "Ship To" and "Bill To" address.
 - 3) Description of each item on your order, the part number, quantity, & finish as required.

Terms

- Net 30 days
- \$25 minimum order size
- Prices subject to change
- F.O.B.-Troy, MI or factory
- Freight pre-paid and added to your bill

Freight Damage

- Problems with shipping damage? 3 Easy Steps to follow to make sure you get paid for your claim:

- 1) Damage can sometimes occur during the shipment of your orders. To help you have a better opportunity at resolving freight claims with common carriers, we recommend the following:

When you receive a delivery, sign the bill of lading "**Subject to internal inspection.**" You then have 24 hours after receiving your order to contact the carrier and report any damage. The truck company cannot decline the freight claim as easily and your claim does not necessarily fall under the concealed damage category.

You still need to always note any obvious or potential damage on the bill of lading when you receive an order. Use of the "**Subject to internal inspection**" terminology gives you more leverage with a carrier than a concealed damage claim that has been signed free and clear at the time of delivery.

- 2) Fax or send us a copy of the freight bill which notes the damage or shortage.
- 3) Call the freight company and request a claim form within 15 days after the product delivery. Upon receipt of form, complete and return to freight company.

(Please call us if you need any assistance.)

Phone

1-800-642-2403

Fax

1-800-642-2406

Monday thru Friday
8:00-5:00 (ET)

After hours leave a message.
We will return your call
the next business day.

Claim Terms

- Our low prices depend on customers following Federal Trade Commission Trucking procedures by catching damaged material at the time of delivery.
- Procedures require customers to sign that goods are received damaged or not damaged.
- Customers are responsible for paying us the amount on our bill even when the goods are damaged.
- The trucking company will review your claim and pay you directly.
- If necessary, we will help you file a claim and ship an immediate replacement.
- We cannot be held responsible for the trucking company not paying your total bill if you sign that goods are not damaged.

Order with Confidence

- All In Stock items are completely returnable up to 30 days after our billing date. We will replace it, exchange it, or refund the price of the merchandise.
- Custom Orders are not normally returnable. Unfortunately, we must have a policy that certain materials such as toilet partition panels, pilasters, and doors; chalkboards, locker doors and frames, wood chair backs and seats, etc., which are made especially to fill your order cannot be returned.

Special Design Questions?

- Put our engineering department to work for you!

Customer Satisfaction

- Our business depends on your satisfaction. Please tell us if you are not satisfied with our services. What can Robert Brooke do to service you better
